IWAI/Hydro/SC/IWI/2018/62

20th July 2018

Sub: Membership with Inland Waterways International (IWI)

1. IWAI has been granted Corporate Membership in Inland Waterways International (IWI). It brings together people and organisations who support the conservation, use, development and proper management of Inland waterways worldwide. The membership is for one year presently and would be renewed periodically to stay in touch. The organisation has its head office in France and the website is <https://inlandwaterwaysinternational.org/> and the logo and link of/to IWAI has also been posted on their website. Certain publications printed by them have also been demanded and on arrival would be handed over and placed in the Library.
2. Personnel of IWAI can visit the website of IWI and can apprise and educate themselves with the best practices in usage of inland waterways the world over. The publications could also be perused and used for value addition in the practices being followed in our waterways. IWAI can also post information on the IWI website on subject like vanishing waterways, prevention of plastic pollution in waterways, voyage/journey on waterways innovation/new methods of maintenance in waterways etc. for knowledge of all others who use the same. The nodal officer in IWAI who is authorised to communicate with IWI is Hydrographic Chief and specific inputs/uploads should be forwarded to him for onward transmission and interaction with IWI. Additional information on the organisation is placed at enclosure to this note.
3. It is requested that this note may be circulated to all personnel in your department/ wing to make them aware of it and encourage them to make the best use of this plethora of information and knowledge. Incorporation of these practices in our country would lead to better management and usage of our waterways too.
