

Important projects on NW-3:

(i) Container terminals with Roll on - Roll off facilities:

Two IWT container terminals, one at Bolgatty and the other at Willingdon island with Ro-Ro facilities have been constructed by IWAI through Cochin Port Trust to provide connectivity with ICTT Vallarpadam due to which trucks/trailers bound for Vallarpadam need not pass through the congested roads of Kochi city. These terminals are in operation since February 2011.

Ro-Ro terminal at Bolgatty

(ii) Construction of terminal at Alappuzha: The project comprises of construction of RCC Jetty of size 30 m X 10m, Godown (400 sqm.) and office
